Wheels.

Those who want to get ahead in life need traction.

Pure performance starts from the ground up: at the wheels. After all, they are what ultimately transmit the power of your sports car to the road. They are the assured platform for power, driving pleasure and, of course, an unmistakable look.

Wheels with summer tyres

- 1 20-inch Carrera Sport wheel
- 2 20-inch Carrera S wheel
- 3 20-inch Carrera S wheel painted in satin platinum
- 4 20-inch Carrera S wheel painted in black (high-gloss)

Visit www.porsche.co.uk/equipment to view all the Tequipment products online.

For general tyre information, please refer to page 142 onwards.

Wheels with summer tyres

- 5 20-inch 911 Turbo wheel
- 6 20-inch Carrera Classic wheel

Wheels with winter tyres

- 7 19-inch Boxster S wheel
- 8 18-inch Boxster wheel

Fully on track. Especially when it comes to your driving pleasure.

Porsche wheel and tyre sets are an essential component when it comes to driving pleasure and driving safety. That's why we require all tyres to prove their Porsche compatibility.

Qualities under test include performance, rolling resistance and rolling noise. On the floatable dynamic stretch, traction and brake tests are integral to the evaluation programme. In the end, only the best tyres can expect to be awarded the 'N' designation. These high-performance tyres are distinguished from other tyres particularly in terms of their geometry, the rubber compound and their rigorous testing – which involves no fewer than 33 important criteria. These comprise 12 objective outdoor criteria, such as dry and wet braking performance and service life, in addition to 16 objective rig criteria. Among other qualities, these assess rolling resistance and high-speed strength. Then there are five subjective outdoor criteria, which include handling and driving comfort. The tangible result? Driving pleasure and driving safety.

i DID YOU KNOW ...
... the foundation for Porsche wheel tests is laid during outings on the Nürburgring? The values observed there are used as input parameters for the subsequent testing of our wheels. Not least the endurance test of the biaxial wheel test (ZWARP) – which simulates the long-term strain associated with extreme driving styles. The result: safe, high-performance wheels. Engineered in Weissach.

- 1 Mahogany interior package**
 Other Tequipment options not shown:
 carbon interior package, brushed aluminium interior package
- 2 Heated multifunction sports steering wheel in mahogany**
 Other Tequipment options not shown:
 heated multifunction sports steering wheel in carbon, heated multifunction GT sports steering wheel in leather, heated multifunction GT sports steering wheel in Alcantara®

Exterior and performance.

For individualists, there are simply no standard solutions.

Life always has room for a little more intensity. The SportDesign package and SportDesign front apron provide an even more individual, even more extreme finish to your 911. Designed in parallel with the vehicle itself at the Porsche Development Centre in Weissach, these two options emphasise the dynamic design of your iconic sports car.

During its development in Weissach, the aerodynamic functionality of the Aerokit 911 Turbo was top priority. Its elite design, coupled with an attractive appearance, make for further enhanced driving dynamics.

Visit www.porsche.co.uk/equipment to view all the Tequipment products online.

- 1 SportDesign front apron
- 2 SportDesign package
- 3 Aerokit 911 Turbo

Stormy weather is character-forming, especially when it comes to design and aerodynamics.

Headwind? No problem. For you and our engineers, that's exactly where the fun starts. Our SportDesign packages and Aerokit 911 Turbo have been put through rigorous testing at the Porsche Development Centre in Weissach, both in the wind tunnel and on the race track. The high-tech wind tunnel sets new standards. Its fan, measuring eight metres in diameter and engineered with extremely lightweight carbon blades, is able to generate wind speeds of up to 300km/h. What's more, the floor surface rolls along underneath the vehicle at the same speed as the wind throughout the aerodynamic evaluation. The result? A headwind that delivers thanks to perfect design and first-class drag coefficients.

And on the road? The resulting design ensures that the overall package really performs under real conditions.

i DID YOU KNOW ...

... the new Aerokit 911 Turbo includes a new, distinctive front spoiler trim? It also consists of an entirely new rear lid design featuring a fixed rear spoiler with side winglets. Added to this is an extending rear wing, with adjustable pitch angle.

Visit www.porsche.co.uk/equipment to view all the Tequipment products online.

- 1 Sideskirts painted; model designation in silver colour
- 2 Front spoiler painted
- 3 'PORSCHE' logo and model logo painted in black (high-gloss)
- 4 SportDesign exterior mirrors
- 5 Rear side air intakes painted

Other Tequipment options not shown:
 Model designation on doors in black,
 'PORSCHE' logo and model logo painted in exterior colour,
 'PORSCHE' logo and '911' logo painted in black (high-gloss) or in exterior colour,
 'PORSCHE' logo painted in black (high-gloss) or in exterior colour,
 rear apron painted,
 rear side air intake grilles in carbon

**Anything but standard.
This also applies to the sound.**

Sports exhaust system and sports tailpipes.

The typical Porsche sound – powerful, throaty and sporty. Better still, it can be further enhanced thanks to the sports exhaust system, featuring a modified silencer and specially designed, centrally positioned twin tailpipes. By simply pressing the button integrated in the right half of the control panel, you can change the sound according to your driving behaviour – from a throaty output during normal road driving to a distinctively more aggressive tone during performance use. The specially designed tailpipes are available in silver colour or black.

Some models may require additional components (please refer to the fitting and conversion instructions).

For vehicles that are already fitted with a sports exhaust system, black tailpipes are also available separately.

Visit www.porsche.co.uk/equipment to view all the Equipment products online.

- 1 Sports tailpipes in black
- 2 Sports tailpipes in silver colour
- 3 Sports exhaust system with tailpipes in black

Enhanced power.

911 Carrera S Powerkit.

The 911 was born out of Fascination Sports Car. The source of this fascination can be traced back to the Porsche Development Centre in Weissach, where our designers and engineers give their all to produce one breakthrough after another. The most recent accomplishment is the new 911 Carrera S Powerkit. Capable of producing a whole 22kW (30hp) more than the original engine output, the new Powerkit creates an impressive 331kW (450hp).

The Powerkit also includes the sports exhaust system with specially designed, centrally positioned twin tailpipes in silver colour, a larger exhaust turbocharger, modified brake cooling, optimised engine management and Sport Chrono Package including dynamic engine mounts. The redesigned engine compartment styling with titanium-coloured cover and carbon inlays featuring the 'Carrera 3.0 S' or 'targa 3.0 S' and 'EXCLUSIVE POWERKIT' logo completes the Powerkit's visual appearance.

The Powerkit is also available for vehicles already fitted with a sports exhaust system.

Visit www.porsche.co.uk/equipment to view all the Tequipment products online.

Not all products are available for every model. Please refer to the Equipment Accessories Finder for all the options for your car.

Exterior and performance.

Broaden horizons – and your imagination.

A Porsche does not conform; except to your ideas. The SportDesign package lets you make your Panamera even more dynamic, powerful and individual.

Visit www.porsche.co.uk/tequipment to view all the Tequipment products online.

- 1 SportDesign package
- 2 SportDesign package painted in black (high-gloss)

SportDesign package

Athletes are characterised by their physique. The SportDesign package designed for the Panamera provides an unmistakable look and an even more powerful appearance. It comprises of a distinctive SportDesign front apron, unique SportDesign sideskirts and a distinctive rear apron.

All components are available in the exterior colour. The air intakes and C-blades in the front apron are available in satin

black, as is the diffuser in the rear apron, thereby lending a first-rate overall finish. The front licence plate carrier is also included in the package and can be painted in the exterior colour.

Goosebumps. At the touch of a button.

Sports exhaust system and sports tailpipes.

The Porsche sound can also be further enhanced. Thanks to the sports exhaust system – featuring modified silencers and two round twin tailpipes in a distinctive design. By simply pressing a button, you can change the sound according to your driving behaviour – from a throaty output during normal road driving to a distinctively more aggressive tone during performance use.

The accompanying sports tailpipes have a distinctive design and are available in either silver colour or black (high-gloss).

Wheels.

The foundations for every great performance are always built from the ground up.

When it comes to driving performance, exceptional wheels are key. Not only does a sports car need power, it needs to be able to transfer it to the road. Wheels from Porsche Tequipment create the perfect conditions for this. After all, they combine sophisticated technology with outstanding driving characteristics and an individual appearance.

Exterior and performance.

Total freedom can also be creative freedom.

Your life, your decisions. When it comes to configuring your sports car, you should only go one way – your own.

Visit www.porsche.co.uk/tequipment to view all the Tequipment products online.

¹ SportDesign package

SportDesign front apron¹⁾

Clearly defined. Exactly as you would expect of a genuine performance athlete. The distinctively designed front apron that is included in the SportDesign package is available in the exterior colour of your vehicle and has an air intake grille in satin black. Its striking appearance is impressively enhanced by wheel arch extensions, sideskirts and the Cayenne Turbo tail section.

¹⁾ Availability to be confirmed.

SportDesign package¹⁾

Sporting challenges? The Cayenne accepts. The SportDesign package creates an unmistakable look and an even more imposing overall impression. It comprises a distinctive front apron available in the exterior colour with additional air intakes, a distinctive rear apron available with a paint finish, sideskirts and prominent wheel arch extensions.

Restricted off-road use.

Carbon Design package

The material derived directly from motorsport. Your source of inspiration. With the Carbon Design package, you can create a racing look – and that's at the very first glance. Accents are added by the air intake grilles painted in black (high-gloss).

The airblades on the front end finished in carbon, the diffuser in carbon and the exterior mirror upper trims in carbon do more than hint at the car's race track heritage.

Visit www.porsche.co.uk/equipment to view all the Tequipment products online.

- 2 Centre console armrest with Porsche Crest

Interior.

The interior.
Or should we say dream interior?

Live your dream – when choosing both your next destination and configuring your ideal vehicle interior. After all, your Cayenne not only represents your personal freedom, but also your creative freedom.

The following interior packages are available:

Anthracite chestnut¹⁾

Carbon

Visit www.porsche.co.uk/tequipment to view all the Tequipment products online.

¹⁾ Since wood is a natural product, there may be variations in colour and grain.

Audio and communication.

Great excitement – even before you arrive.

Exciting moments are part of every great experience – and these can sometimes be virtual. Porsche Rear Seat Entertainment (PRSE) ensures that rear passengers do not miss out on this enjoyment, providing great entertainment during your journey.

1 Porsche Rear Seat Entertainment (PRSE)

Genuine accessories

Broaden your horizons – accessories from Porsche Tequipment allow you to do just that. With more space, more care and more safety: in short, with more opportunities for your Porsche.

Transport.

**Out of the box –
it also applies to our roof boxes.**

Life offers so many opportunities – take advantage. Our roof boxes and transport systems allow you to easily adapt your Porsche to your requirements. And what about us? We ensure that all Porsche Tequipment transport systems are designed for performance, just like your Porsche – and your life.

We perform very thorough tests – transport systems are actually more complex than many people think. Braking safety, noise levels and fuel consumption are just some of the important points that are tested in Weissach, but we're mainly concerned with ease of operation. After all, our roof boxes should quickly and securely meet all your transport requirements.

If you find the boxes have incurred a little damage following intensive use: Porsche paintwork polish will remove any dirt and minor scratches in no time at all.

Roof box 520 (520 litres)
2,180 × 895 × 400mm
in black (high-gloss)

Roof box 520 (520 litres)
2,180 × 895 × 400mm
in platinum look

Roof box 320 (320 litres)
2,060 × 840 × 340mm
in black (high-gloss)

Roof box 320 (320 litres)
2,060 × 840 × 340mm
in platinum look

More information to help you select the right roof box is available on page 145.

DID YOU KNOW ...

... our roof boxes have a locking system on both sides? This simplifies both the loading and unloading of the box. The system also ensures maximum transport safety, as the key can only be removed when the roof box is fully closed.

Not all products are available for every model. Please refer to the Tequipment Accessories Finder for all the options for your car.

Scan the QR code or visit www.porsche.co.uk/tequipment to view all the products online.

Other Tequipment options not shown:
roof box storage bag

Sporting challenges rarely begin on your doorstep.

Got lots of plans? That's good. After all, your Porsche is a master at combining sporty driving with your other favourite sports – such as cycling. No matter where your next adventure is destined to begin: your Porsche will take you there.

Not all products are available for every model. Please refer to the Tequipment Accessories Finder for all the options for your car.

Roof transport system

This versatile roof transport system is compatible with all our load-carrying attachments. Two lockable aluminium cross members offer effective anti-theft protection. The vehicle has a maximum roof load of 75kg.

Bike carrier

For all standard adult and children's bikes up to a maximum frame-tube diameter of 100mm. With an anti-tipping mechanism to hold the bike securely in position.

Racing bike carrier

Capacity for two racing bike carriers. With quick-clamping device for the front fork and lengthways-adjustable rear wheel mount. Also suitable for bikes with a carbon frame. The front wheel can be stowed optimally in the front wheel holder on the roof transport system or in the interior in the bag provided.

Rear-mounted bike carrier

Lockable, foldable rear-mounted black aluminium carrier for up to two bicycles (maximum weight per bike: 30kg). Mounts quickly on the towbar system without the need for any tools. Also suitable for electric bikes (2 × 30kg).

**When travelling to major destinations,
you sometimes need to take lots of luggage.**

Your Porsche offers plenty of space for the important things in life: personal freedom, for example. How this should be expressed exactly is, of course, entirely down to you. The transport accessories from Porsche Tequipment give you lots of options, whether you need a luggage set matching your Porsche for your next trip, or would like to have the ability to carry more. Ultimately, it's all about one thing: your wishes and preferences.

Not all products are available for every model. Please refer to the Tequipment Accessories Finder for all the options for your car.

- 1 Luggage set
(all components of the luggage set are also available separately)
- 2 Cool box
- 3 Electrically extending towbar system

Other Tequipment options not shown:
collapsible luggage compartment box

Child seats.

Even the dream of a great adventure started on a very small scale.

Travelling in a Porsche is definitely a thrill, for little ones too. This is why Porsche Tequipment offers specially designed child seats. They meet strict safety standards and have been specially tested and approved for Porsche cars, thereby providing protection and comfort for passengers up to 12 years of age. The fabrics are breathable, hypoallergenic and easy to clean, with a removable and washable cover in black and grey and contrasting red trim.

Porsche child seats can be conveniently and safely secured to the seat using ISOFIX or the three-point seat belts. For extra safety, the Porsche Baby Seat and Porsche Junior Seat ISOFIX have an independent five-point belt system.

i DID YOU KNOW ...

... the world's first child seats were launched in 1963? But it wasn't until 1 April 1993 that it was mandatory for child seats to be used for children up to the age of twelve in Germany. In 2001, the ISOFIX system was introduced in Germany, since then this innovative system has made it significantly easier to install child seats and secure children – and improved safety.

Not all products are available for every model. Please refer to the Tequipment Accessories Finder for all the options for your car.

Scan the QR code or visit www.porsche.co.uk/tequipment to view all the products online.

A
Model: Porsche Baby Seat + Base ISOFIX^{1), 2)}
Group: G 0+
Weight: up to 13kg
Age: up to approx. 15 months

B
Model: Porsche Junior Seat ISOFIX¹⁾
Group: G 1
Weight: 9 to 18kg
Age: approx. 9 months to 4 years

C
Model: Porsche Junior Plus Seat ISOFIT^{1), 3)}
Group: G 2–G 3
Weight: 15 to 36kg
Age: approx. 4 to 12 years

Seat protector

To protect the surface of the car seat from dirt and damage, a child seat underlay is available as an option.

Prior to installation, please refer to the child seat operating instructions for your vehicle, where you will find all the important information about the appropriate child seats for your model and the correct positioning of these in your car.

1) ISOFIX/ISOFIT is a secure and user-friendly child seat mounting system that rigidly attaches the child seat to the vehicle.
2) Separate Porsche Baby Seat Base ISOFIX, G 0+ option.
3) Also available as Porsche Junior Plus Seat.

Protection.

Even explorers sometimes need a little security.

Embark upon a voyage of discovery. Explore something new everyday – the possibilities are almost limitless. Your life is not designed for standing still. Just as well, after all, neither is your Porsche. To ensure that you can always focus on the essentials – driving pleasure – before, during and after your journey, our products ensure that everything you transport is well protected.

Car care.

Did you expect anything other than maximum performance from our car care?

Special cars deserve special attention. With its exclusive 'White Edition' car care range, Porsche has therefore developed a programme that offers a wide selection of products for protecting and maintaining the interior and exterior of your vehicle.

The 'White Edition' car care products are presented in a high-quality RIMOWA® trolley case, providing perfect storage for all the products. The trolley case fits every Porsche model and is sturdy and ultra-light. The foam inlay can be removed if necessary, allowing the trolley case to be used as a high-quality travel accessory.

Also typical of Porsche Tequipment, is the unique design of all the bottles. Developed together with the designers from Studio F. A. Porsche, it is timeless and inspired by the shape of the Porsche Crest.

Our service.

**Designed for performance:
at any time of year.**

A Porsche also needs special attention in the winter. The ideal partner for the task at hand: your Porsche Centre. After all, who better to look after your car than those who would treat it as if it were their own – with passion and dedication. Our specialists have the expertise required for historic and classic cars, as well as our more recent models. They are extremely familiar with each and every model and know how to maintain, repair and service them correctly. They only ever use Porsche genuine parts, as well as the latest diagnostic technology and special tools – and, of course, they also ensure that all Tequipment products are professionally fitted and installed with customary Porsche performance.

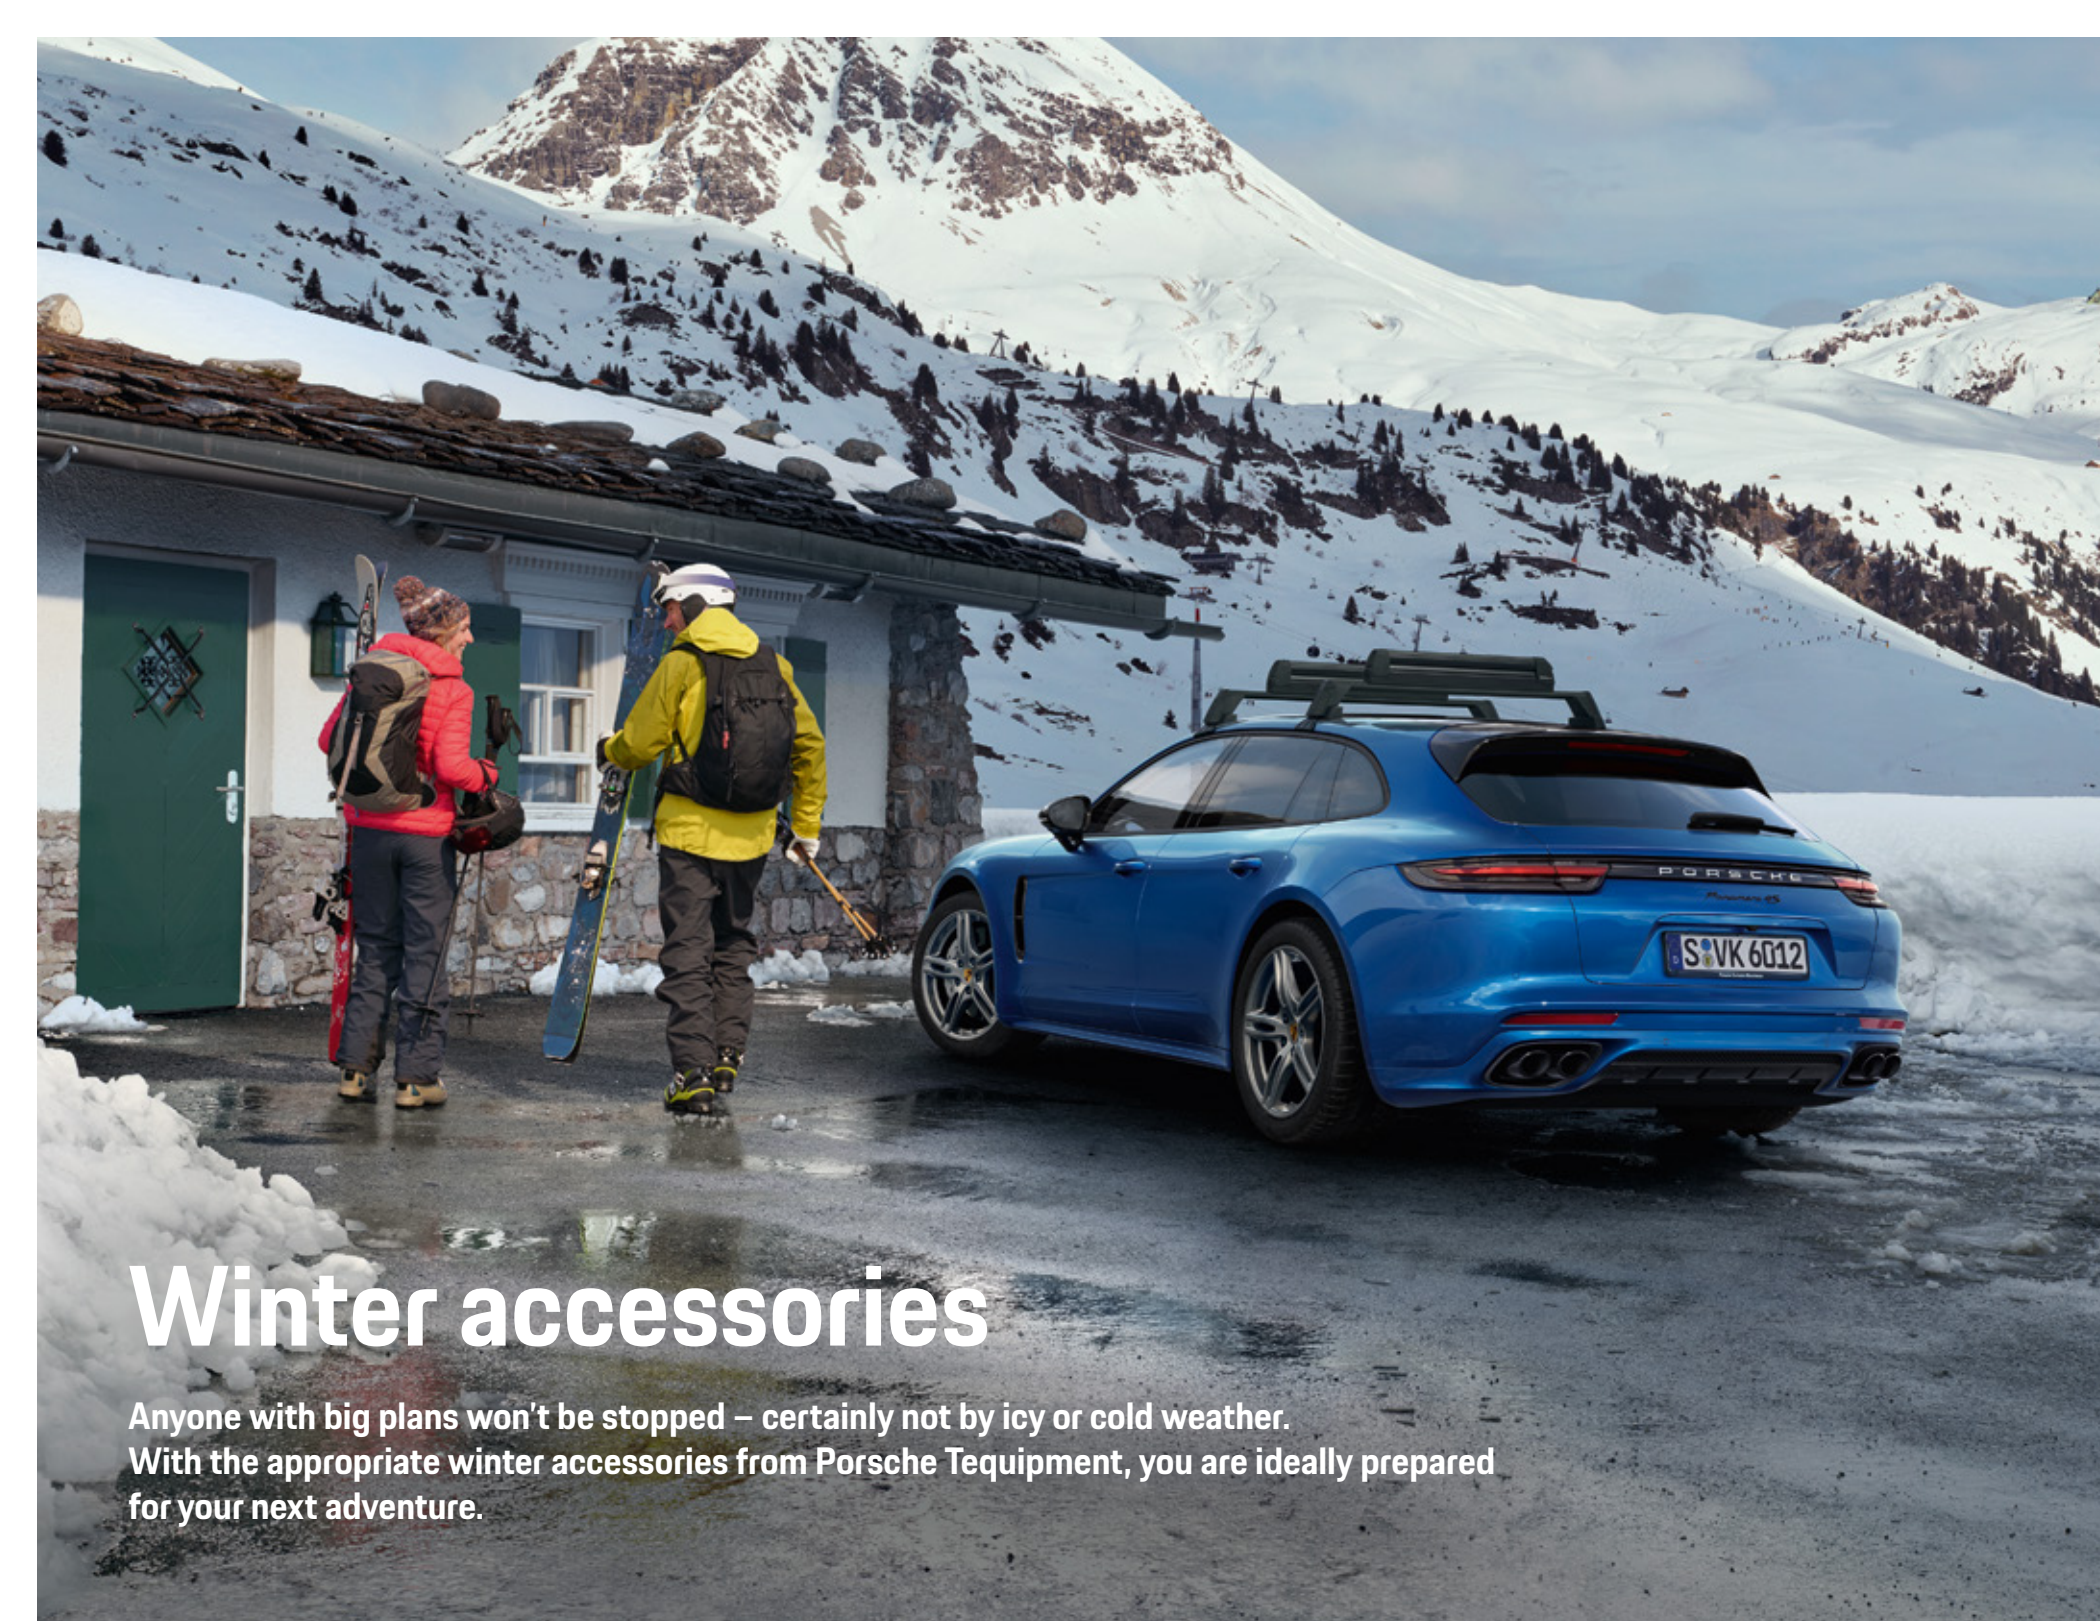

At www.porsche.com/service you will find further information about all available Porsche services and offers for your vehicle.

Change-over zone: for your tyres

New season, new wheels. The change-over to the appropriate winter or summer tyres is something that our experts at our Porsche Centres will gladly do on your behalf. As well as ensuring that your wheels are fitted correctly, they will, of course, also be happy to see to the professional storage and care of the wheel and tyre combination being removed. In addition to meticulous cleaning, this service will include a thorough visual inspection of the tyres and rims. After all, your high-quality wheels have earned the best treatment – even when they take their well-deserved break.

Winter accessories

Anyone with big plans won't be stopped – certainly not by icy or cold weather. With the appropriate winter accessories from Porsche Tequipment, you are ideally prepared for your next adventure.

Winter accessories.

Maximum performance even at sub-zero temperatures.

A Porsche is an all-year-round athlete. Prepare for the cold weather with the appropriate winter accessories and car care products from Porsche Tequipment.

Not all products are available for every model. Please refer to the Tequipment Accessories Finder for all the options for your car.

- 1 Ice scraper
- 2 Ski bag
- 3 Ski/snowboard carrier, sliding

High velocity.

Even when it comes to expanding your mobility.

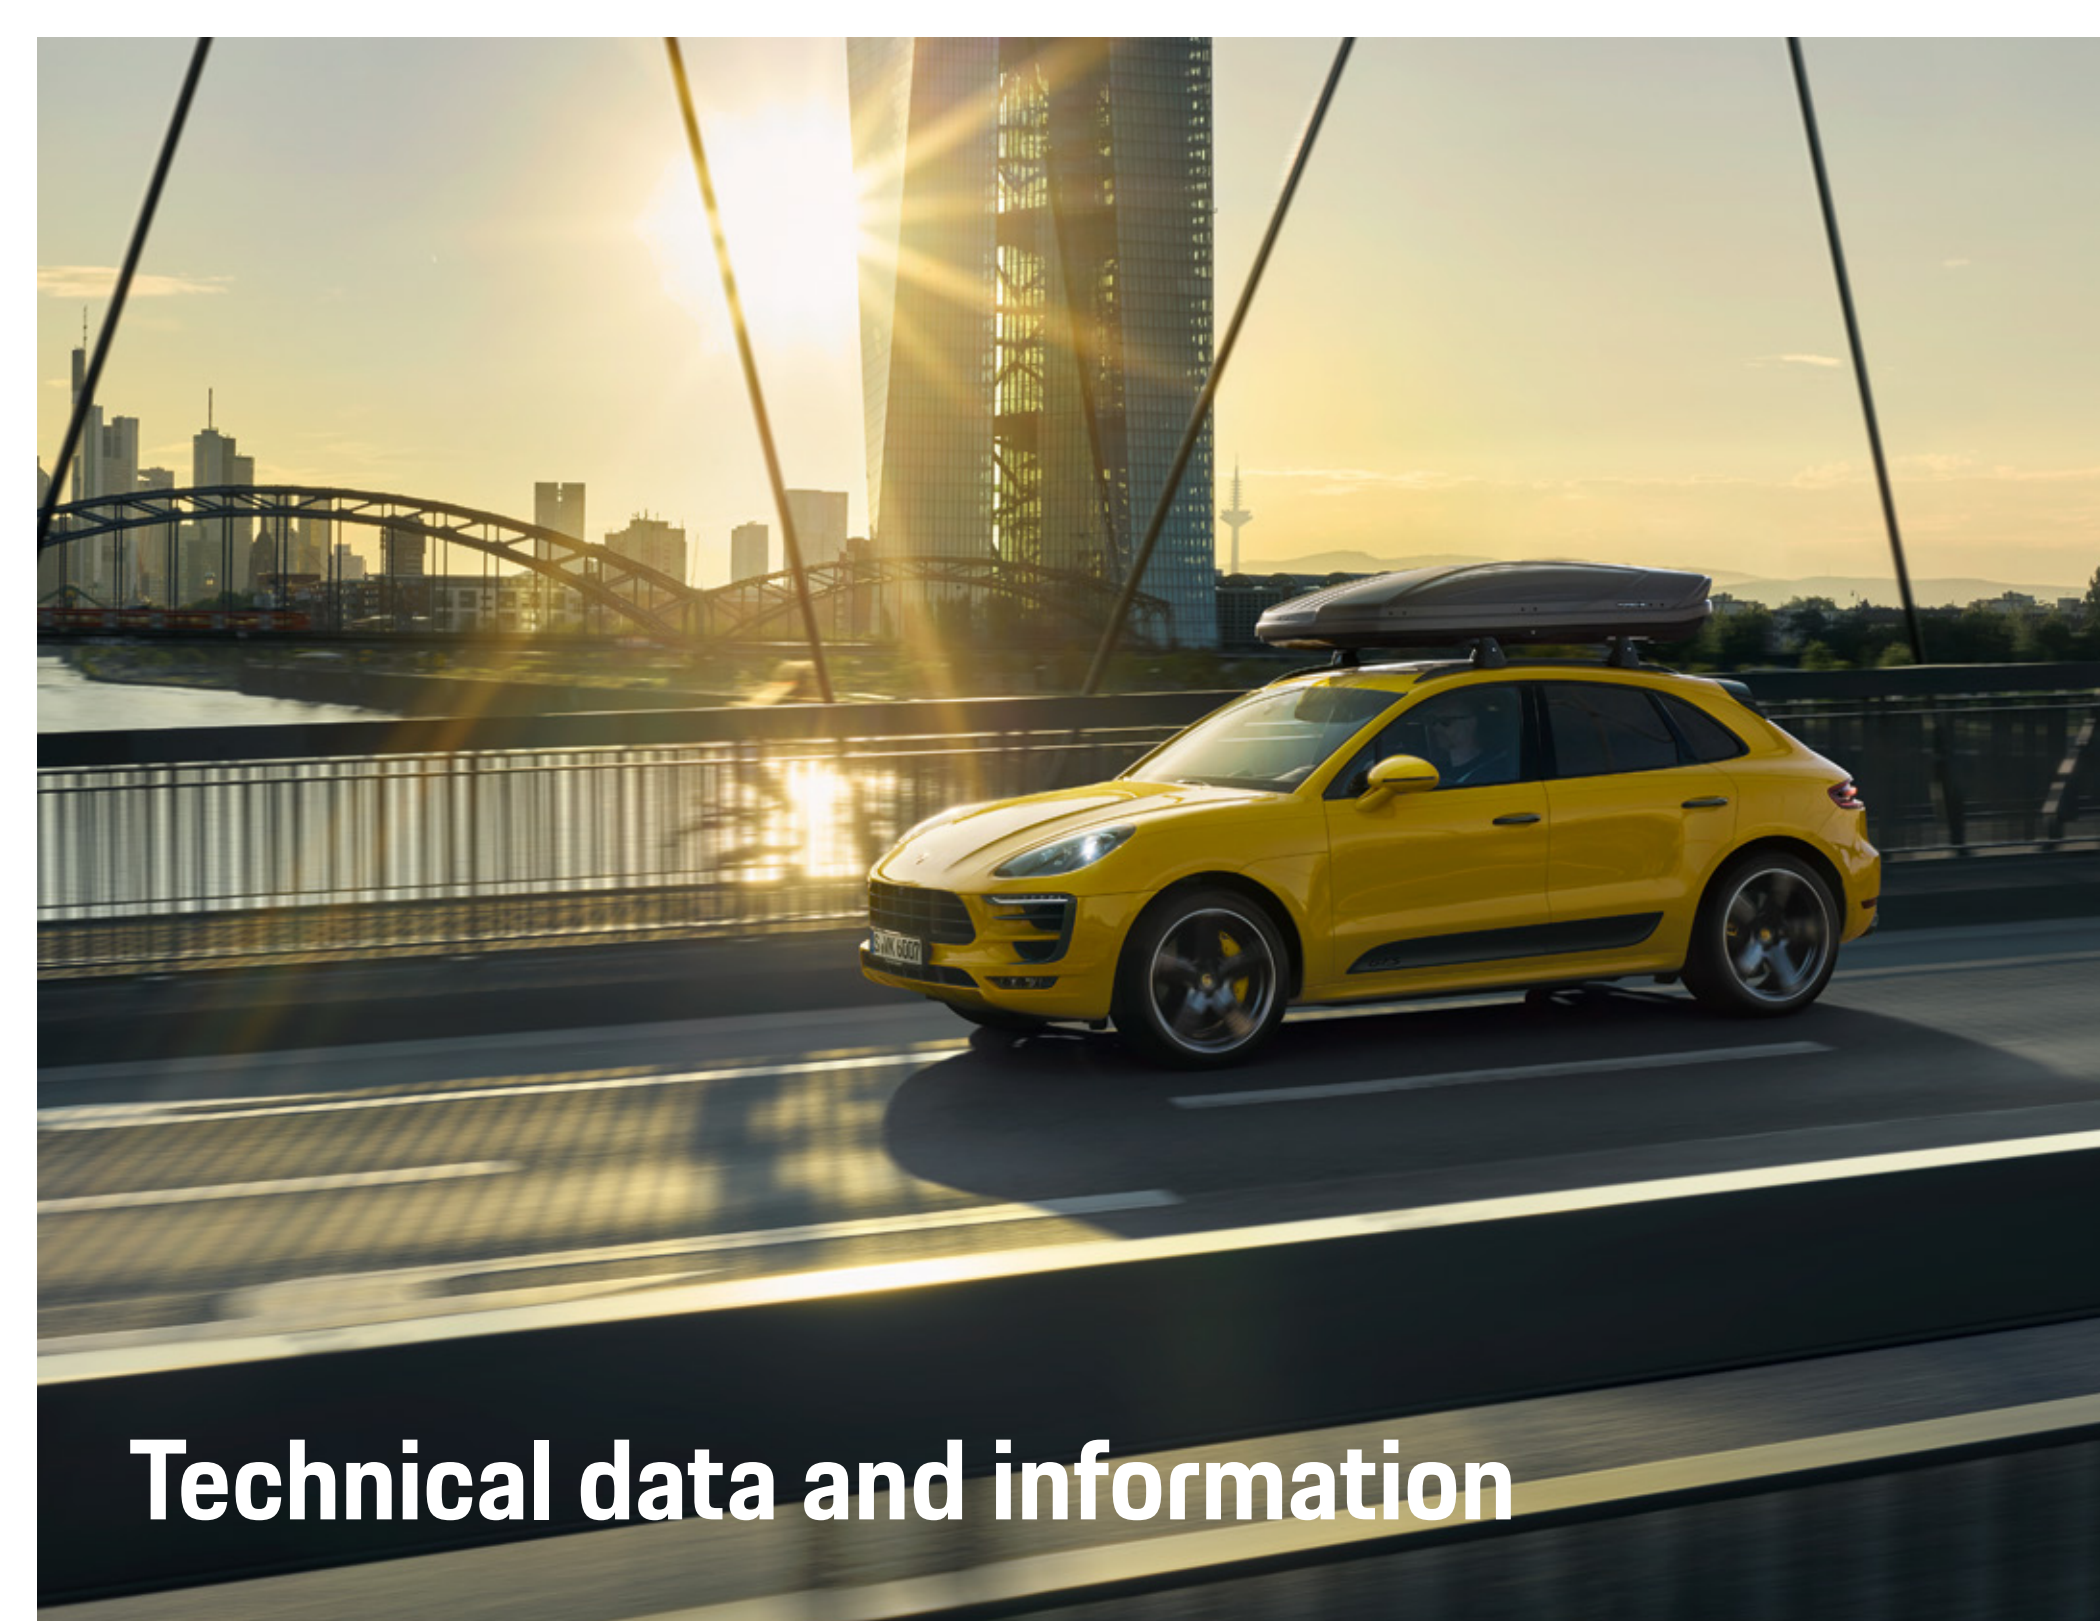

Performance 365 days a year. Your Porsche is a year-round athlete, even in winter with a thick covering of snow – providing you have the right snow chains. We leave nothing to chance when selecting these important aids, our Tequipment snow chains therefore undergo rigorous testing.

The snow chains used must initially demonstrate how well they perform in terms of handling – on the test track under extreme conditions. As well as the quality of the materials, we also test their fitting and removal. Driving characteristics also play an important role and are closely examined. We therefore simulate various driving situations, such as setting off, traction, steering ability and directional control, as well as driving comfort. Because even though a vehicle's top speed when fitted with snow chains is 31mph, you should also be able to rely on one thing in particular even in the snow: performance.

i DID YOU KNOW ...

... the number and distribution of snow chains across the tread (Y chains or diamond-patterned chains) are crucial for handling? The coarser the structure, the poorer the smoothness. For this reason, at Porsche we only use fine diamond-patterned chains with low application strength.

Technical data and information

General tyre information

All tyres fitted by Porsche comply with Porsche specifications. These tyres are identified by the specification index (NO, N1, etc.) on the sidewall. These are the only tyres recommended by Porsche. For logistical and technical reasons relating to the production process, we are unable to accept orders for a particular make of tyre. The make of tyre may vary from that shown. If the wheel and tyre combination is not specified in your vehicle documents, please request a manufacturer's certificate from your Porsche Centre.

Fuel efficiency class, wet grip class and rolling noise for the 911:

	275/40 R 21	C	B		69
	305/35 R 21	C	B		69

* Quiet rolling noise, Moderate rolling noise, Loud rolling noise.

Note on the use of winter tyres

Summer tyres provide optimum performance at ambient temperatures above +7°C. Below this point, the tyre compound begins to harden and braking distances are increased. We therefore recommend that you fit winter tyres during the colder months of the year so that you can drive your vehicle safe in the knowledge that it will continue to meet our high standards for driving safety, even at low temperatures. All winter tyres approved by Porsche are identified by an 'N' designation on the sidewall.

Additional benefits: the tyres are noise-optimised. There is also less rolling resistance, which helps reduce fuel consumption.

Tyre braking behaviour for all models:

Braking with ABS on a wet road (49–0mph) at +3°C

Braking with ABS on snow (24–0mph)

Examples: braking distance as % (measured using Porsche specification tyres). Improved braking distances using Porsche winter tyres. Absolute values may vary.
